CORTEN STEEL

Corten steel is a 'living" material, changeable over time, not uniform in appearance and each product has unique shades and colors.

We sand blast our products in Corten steel, before proceeding with the oxidation process, designed to imit water consumption.

 $To \, reduce \, physiological \, leak \, of \, oxide, upon \, request. \, antiwashout \, treatment \, is \, available.$

In particularly saline environments. Corten steel may have a different reaction, we recommend evaluating the positioning.

OXIDIZED

OXIDIZED PROTECTED WITH ANTIWASHOUT
