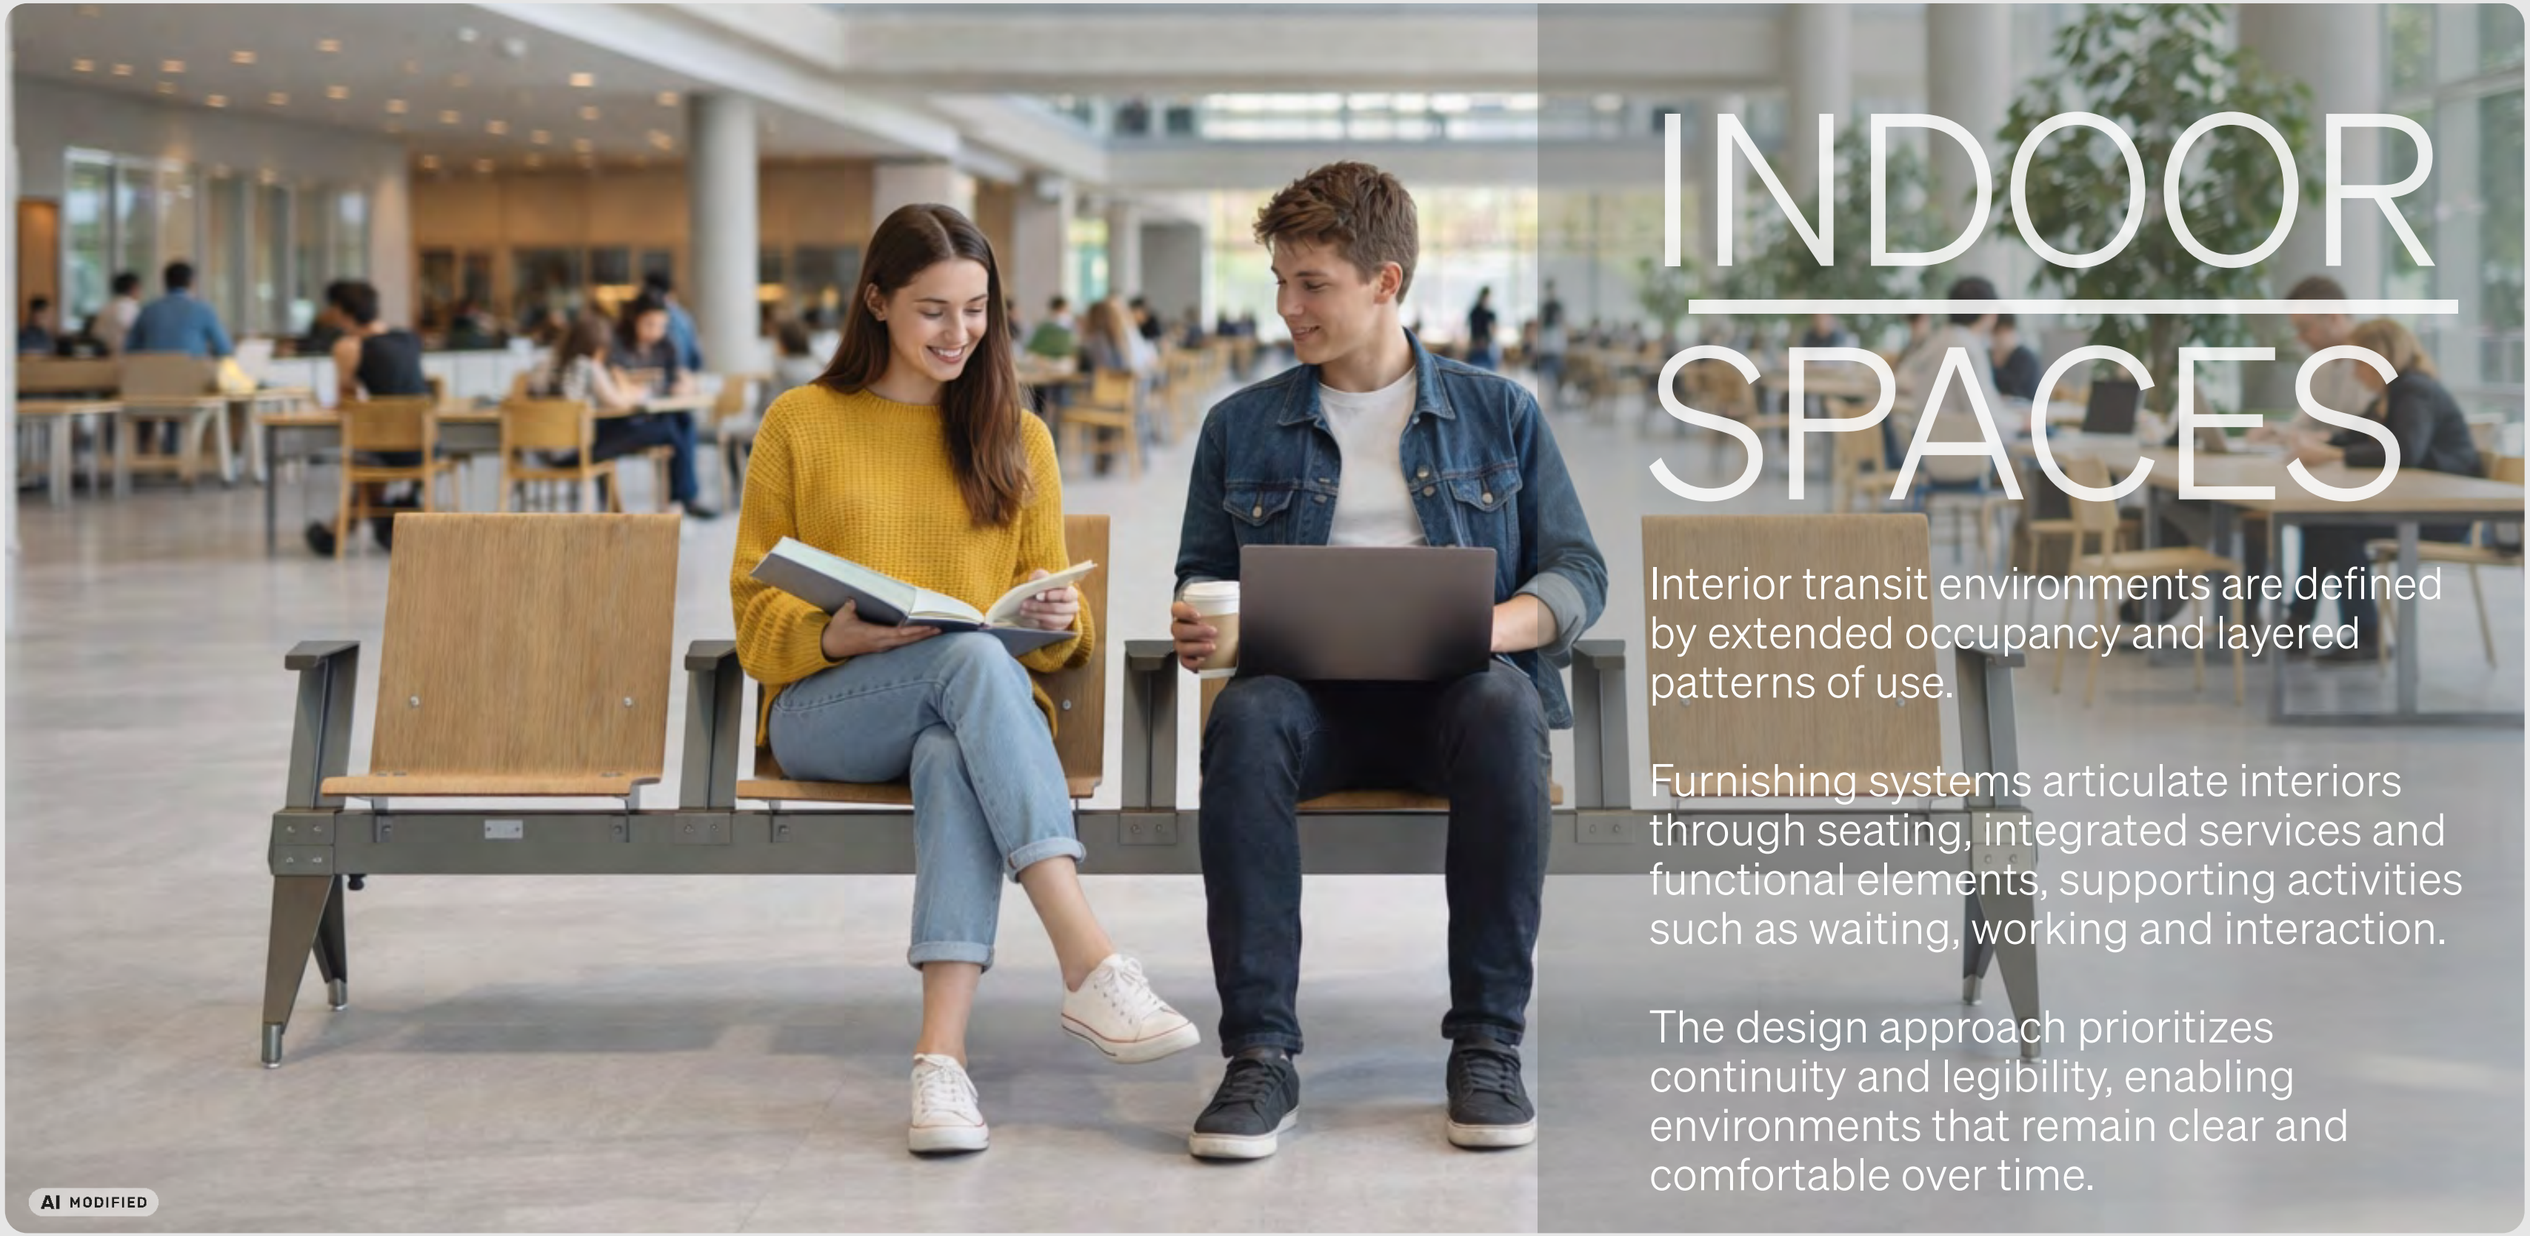
DESIGNING SPACES OF TRANSIT

metalco



INDOOR SPACES

Interior transit environments are defined by extended occupancy and layered patterns of use.

Furnishing systems articulate interiors through seating, integrated services and functional elements, supporting activities such as waiting, working and interaction.

The design approach prioritizes continuity and legibility, enabling environments that remain clear and comfortable over time.

OUTDOOR SPACES

Exterior settings require elements capable of anchoring open and variable conditions.

Furnishings engage with architecture and landscape, contributing to the definition of paths, thresholds and areas of pause.

Robust construction and precise geometries ensure durability, readability and consistent integration.

ICONIC PLACES

Iconic environments require elements capable of expressing a strong and recognizable identity.

In these contexts, furnishings contribute to defining the character of the place through form, scale and material presence, becoming visual references within the built environment.

Metalco's Icons collection responds to this need, offering elements conceived to leave a lasting mark.

MOBILITY

Contemporary mobility introduces new requirements related to access, storage and circulation.

Dedicated systems accommodate bicycles and shared transport devices, organizing their presence within the built environment.

These solutions balance efficiency and order, supporting evolving modes of movement without compromising clarity.

L'obiettivo del presente catalogo è di fornire informazioni a carattere generale in relazione ai prodotti e il contenuto dello stesso non deve comunque essere considerato né esaustivo né completo.
Le informazioni tecniche, i trattamenti e i materiali ivi descritti sono quelli in vigore alla data di stampa dello stesso.
Foto disegni e testi non hanno carattere contrattuale.
Metalco si riserva di eliminare e/o modificare e/o aggiornare e/o integrare e/o sostituire il presente catalogo e/o i materiali e i prodotti in esso contenuti, così come la tecnologia utilizzata.
Eventuali rilevanti variazioni verranno riportate sul sito Metalco (metalco.it) e/o comunicate tramite sales info o mezzi simili.
In ogni caso, sarà da ritenersi valido il materiale informativo di più recente aggiornamento.

Per eventuali modifiche o aggiornamenti fare riferimento al sito web: metalco.it

The purpose of this catalog is to provide general information about the products.
The content of this document should not be considered either exhaustive or complete.
The technical data, treatments, and materials described therein are in force at the date of printing.
Photos, drawings, and texts are not contractual.
Metalco reserves the right to delete and/or modify, and/or update, and/or supplement, and/or replace this catalog, and/ or the materials and products contained therein, as well as the technology used.
Any significant changes will be reported on the Metalco website (metalco.it) and/ or communicated via sales info or similar means.
In any case, the most recently updated information material will be considered valid.

For any changes or updates refer to the website: metalco.it

L'objectif de ce catalogue est de fournir des informations générales sur les produits et son contenu ne doit en aucun cas être considéré comme exhaustif ou complet.
Les informations techniques, les traitements et les matériaux qui y sont décrits sont ceux en vigueur à la date d'impression de celui-ci.
Les dessins et textes photo n'ont pas de caractère contractuel.
Metalco se réserve le droit de supprimer et/ou de modifier et/ou de mettre à jour et/ou d'intégrer et/ou de remplacer le présent catalogue et/ou les matériaux et produits qu'il contient, ainsi que la technologie utilisée.
Toute modification importante sera indiquée sur le site Metalco (metalco.it) et/ ou communiquée par sales info ou par des moyens similaires.
En tout cas, le matériel d'information le plus récent sera considéré comme valable.

Pour toute modification ou mise à jour, se référer au site web: metalco.it

El objetivo de este catálogo es proporcionar información general en relación con los productos, sin embargo el contenido de estos últimos no debe considerarse ni exhaustivo, ni completo.
La información técnica, los tratamientos y los materiales aquí descritos, son los vigentes a la fecha de impresión del mismo.
Las fotografías, dibujos y textos no tienen un valor contractual.
Metalco se reserva el derecho de eliminar y/o modificar y/o actualizar y/o integrar y/o reemplazar este catálogo y/o los materiales y productos contenidos en el mismo, así como la tecnología utilizada.
Cualquier cambio significativo se informará a través de la página web de Metalco (www.metalco.it) y/o se comunicará a través de una comunicación nominada "Sales Info" o mediante otros medios similares.
En cualquier caso, se considerará válido el material informativo que haya sido actualizado más recientemente.
