

RECONSTITUED STONES

Our PDM (Reconstituted Stones) is a mixture of concrete and aggregates that combines concrete resistance with natural stone elegance.

It is available in four options with white granite, with grey granite, with white marble, and with black marble.

Our products are normally provided with sandblasted finish and with brushed finish for the seating flat surfaces.

Upon request, if the product allows it, it is possible to perform polishing operations.

The finished products are treated with a revitalizing varnish and, if requested, anti-graffiti treatment can be applied.
