SOCIAL DESIGN FOR REAL LIFE

LE

METALCO is part of

STILE è dedicato a tutti quei professionisti che hanno un'attitudine verso la creazione di luoghi e con i quali vogliamo progettare il presente e il futuro delle nostre città.

Quanto troverete all'interno di *STILE* è frutto dell'impegno del nostro team, delle preziose collaborazioni con architetti, designer e progettisti, con i quali condividiamo ideali e passioni.

STILE è la nostra vision: quella di realizzare un'urbanizzazione sostenibile attraverso il **Social Design For Real Life**.

STILE is dedicated to all professionals who aim to create places and with whom we want to design our cities' present and future.

What you are going to find in the *STILE* is the result of the hard work of our team and invaluable collaborations with architects, designers, and urban planners with whom we share ideals and passions.

STILE is our vision: realizing sustainable urbanization through **Social Design For Real Life**.

STILE est dédié à tous les professionnels qui ont une aptitude à créer des lieux, et avec qui nous souhaitons concevoir le présent et l'avenir de nos villes.

Tout ce que vous découvrirez à l'intérieur du *STILE* est le fruit d'un engagement d'équipe, de précieuses collaborations avec des architectes, des designers et des urbanistes, avec lesquels nous partageons des idéaux et des passions.

STILE est notre vision: parvenir à une urbanisation durable à travers le **Social Design For Real Life**.

STILE está dedicado a aquellos profesionales que contribuyen a crear lugares y con los que deseamos proyectar el presente y el futuro de nuestras ciudades.

Lo que encontrarán dentro de *STILE* es fruto del esfuerzo de nuestro equipo y de las valiosas colaboraciones con arquitectos, diseñadores y proyectistas, con los que compartimos ideales y pasiones.

STILE es nuestra visión: realizar una urbanización sostenible a través del **Social Design For Real Life**.

SOCIAL DESIGN FOR REAL LIFE

IL MANIFESTO DI UNO *STILE* SOSTENIBILE

Noi di Metalco abbiamo fatto del **Social Design for Real Life** la nostra missione: è il nostro modo di fare arredo urbano a servizio di un'urbanizzazione che sia sostenibile per l'ambiente e per le persone, ascoltando i bisogni di oggi senza sacrificare le necessità di domani. Per questo:

PROMUOVIAMO LA SOCIALITÀ
perché, se non c'è connessione tra le persone, non c'è benessere.

OSSERVIAMO LA VITA REALE
partendo dall'ascolto del singolo per arrivare a capire l'intera comunità.

INFONDIAMO UN SENSO DI APPARTENENZA
perché ogni persona possa sentirsi al sicuro e accolta non solo a casa, ma anche in tutti gli spazi collettivi, nella propria città e nel mondo.

PORTIAMO RISPETTO PER L'AMBIENTE
perché è una risorsa preziosa che va tutelata.
Con i nostri prodotti e processi contribuiamo a rendere più sostenibili i progetti di arredo urbano in tutto il mondo.

AMIAMO IL DESIGN E LA LIBERTÀ CREATIVA
perché solo unendoli possiamo trasformare l'arredo urbano in Social Design For Real Life.

SAPPIAMO FARE TUTTO QUESTO E LO FACCIAMO CON *STILE*.

THE MANIFESTO OF A SUSTAINABLE *STILE*

At Metalco, we have made **Social Design for Real Life** our mission: that is our way to make street furniture in order to get a sustainable urbanization for the environment and people, listening to the needs of today without sacrificing the necessities of tomorrow. Therefore:

WE PROMOTE SOCIALITY
because there is no well-being without personal connections.

WE OBSERVE REAL LIFE
starting by listening to individual in order to understand the entire community.

WE INSTILL A SENSE OF BELONGING
so that every person can feel safe and welcome not just at home, but also in all collective spaces, in their own cities and around the world.

WE CARE ABOUT THE ENVIRONMENT
because it is a precious resource that must be protected.
With our products and processes, we help to make street furniture projects around the world more sustainable.

WE LOVE DESIGN AND CREATIVE FREEDOM
because only by combining them we can turn street furniture into Social Design for Real Life.

WE DO ALL OF THIS AND WE DO IT WITH *STILE*.

LE MANIFESTE D'UN *STILE* DURABLE

Chez Metalco, le **Social Design for Real Life**, c'est notre mission: c'est notre manière de faire du mobilier urbain au service d'une urbanisation durable pour l'environnement et pour les individus, à l'écoute des besoins d'aujourd'hui sans scarifier les besoins de demain. C'est pour cela que:

NOUS PROMOUVONS LA SOCIABILITÉ
car s'il n'y a pas de liens entre les personnes, il n'y a pas de bien-être.

NOUS OBSERVONS LA VIE RÉELLE
en commençant par écouter l'individu pour arriver à comprendre l'ensemble de la communauté.

NOUS INSTILLONS UN SENTIMENT D'APPARTENANCE
afin que chaque personne puisse se sentir en sécurité et accueillie non seulement à la maison, mais aussi dans tous les espaces collectifs, dans sa propre ville et dans le monde entier.

NOUS RESPECTONS L'ENVIRONNEMENT
car c'est une ressource précieuse qui doit être protégée.
Nous contribuons avec nos produits et processus à rendre les projets de mobilier urbain plus durables et nous le faisons partout dans le monde.

NOUS AIMONS LE DESIGN ET LA LIBERTÉ CRÉATIVE
car ce n'est qu'en les combinant que nous pouvons transformer le mobilier urbain en Social Design For Real Life.

NOUS SAVONS FAIRE TOUT CELA ET NOUS LE FAISONS AVEC *STILE*.

EL MANIFIESTO DE UN *STILE* SOSTENIBLE

Nosotros, en Metalco, hemos hecho del **Social Design for Real Life** nuestra misión: es nuestro modo de crear mobiliario urbano al servicio de una urbanización que sea sostenible para el medio ambiente y para las personas, prestando especial atención a las exigencias actuales, sin sacrificar las necesidades futuras. Por ello:

PROMOVEMOS LA SOCIABILIDAD
porque si no hay conexión entre las personas, no hay bienestar.

OBSERVAMOS LA VIDA REAL
comenzamos escuchando a cada persona individualmente, para llegar a entender a toda la comunidad.

TRANSMITIMOS UN SENTIDO DE PERTENENCIA
para que cada persona pueda sentirse segura y acogida no solo en casa, sino también en todos los espacios comunes, de su propia ciudad y del mundo entero.

RESPETAMOS EL MEDIO AMBIENTE
porque es un recurso muy valioso que debe tutelarse.
Con nuestros productos y procesos, contribuimos a hacer más sostenibles los proyectos de mobiliario urbano en todo el mundo.

AMAMOS EL DISEÑO Y LA LIBERTAD CREATIVA
porque solo uniéndolos podemos transformar el mobiliario urbano en Social Design For Real Life.

SABEMOS HACER TODO ESTO Y LO HACEMOS CON *STILE*.

PROMUOVIAMO LA SOCIALITÀ

Le città e gli spazi collettivi dovrebbero essere a misura d'uomo, promuovendo la socialità e creando luoghi accoglienti per socializzare, lavorare, imparare e giocare.

Proponiamo allora le collezioni di VITAURBANA, caratterizzate da elementi modulari e componibili per creare grandi isole di socialità, sedute che non sono solo panchine ma luoghi di aggregazione come ATOLLO o HARRIS ISOLA, o soluzioni per la convivialità in outdoor come le sedute OLYMPIA e i tavoli della collezione AIR LAP.

Tutti arredi che sono essi stessi luoghi di incontro.

WE PROMOTE SOCIALITY

Cities and collective spaces should be tailored to people, promoting sociability and creating welcoming places to socialise, work, learn and play.

That is why we offer VITAURBANA collections, characterized by modular and compatible elements to create large islands of sociality, seating options that are more than just benches, becoming meeting places, such as ATOLLO or HARRIS ISOLA, or solutions for outdoor conviviality such as OLYMPIA and AIR LAP collections.

All urban furnishings that are themselves meeting places.

NOUS PROMOUVONS LA SOCIABILITÉ

Les villes et leurs espaces collectifs devraient être adaptés aux personnes pour promouvoir la sociabilité et créer des lieux accueillants pour socialiser, travailler, apprendre et jouer.

C'est pourquoi nous proposons les collections VITAURBANA, caractérisées par des éléments modulaires et composables pour créer de grands îlots de socialité, des sièges qui ne sont pas de simples bancs mais des lieux de rassemblement comme ATOLLO ou HARRIS ISOLA, ou des solutions pour la convivialité en extérieur comme les sièges OLYMPIA et les tables de la collection AIR LAP.

Des mobiliers qui sont eux-mêmes des lieux de rencontre.

PROMOVEMOS LA SOCIABILIDAD

Las ciudades y sus espacios comunes deberían estar hechos a medida de las personas, para fomentar la sociabilidad y crear lugares acogedores para socializar, trabajar, aprender y jugar.

En este sentido, proponemos las colecciones de VITAURBANA, caracterizadas por elementos modulares y componibles para crear grandes islas de sociabilidad, asientos que no sólo son ASIENTOS, sino lugares de agregación como ATOLLO o HARRIS ISOLA, o soluciones para la convivencia fuera de nuestros hogares como los asientos OLYMPIA y las mesas AIR LAP.

Se trata de un mobiliario urbano que constituye, en sí mismo, un lugar de encuentro.

OSSERVIAMO LA VITA REALE

Osserviamo la vita reale perché crediamo che ogni persona meriti spazi collettivi sostenibili e inclusivi, capaci di valorizzare sia l'individuo che la comunità.

Poniamo le persone al centro del nostro processo creativo, studiando le sfide quotidiane e le esigenze in ambito urbano.

Partendo dai singoli, puntiamo a creare contesti che li supportino e che favoriscano un senso di appartenenza e coesione, e inclusività al servizio della vita quotidiana.

WE OBSERVE REAL LIFE

We observe real life because we believe that everyone deserves sustainable and inclusive collective spaces that enhance both individuals and communities.

People are at the heart of our creative process, we study everyday challenges and urban needs to design environments that support them.

By focusing on individuals, we create settings that foster a sense of belonging, cohesion, and inclusivity in service of daily life.

NOUS OBSERVONS LA VIE RÉELLE

Nous observons la vie réelle, car nous croyons que chaque personne mérite des espaces collectifs durables et inclusifs, capables de valoriser aussi bien l'individu que la communauté.

Nous plaçons les personnes au coeur de notre processus créatif, en étudiant les défis quotidiens et les besoins urbains.

En partant de chaque individu, nous créons des environnements qui les soutiennent et favorisent un sentiment d'appartenance, de cohésion et d'inclusion au service de la vie quotidienne.

OBSERVAMOS LA VIDA REAL

Observamos la vida real porque creemos que cada persona merece espacios colectivos sostenibles e inclusivos, capaces de valorizar tanto al individuo como a la comunidad.

Ponemos a las personas en el centro de nuestro proceso creativo, estudiando los desafíos cotidianos y las necesidades urbanas.

Partiendo de cada individuo, buscamos crear entornos que los apoyen y fomenten un sentido de pertenencia, cohesión e inclusión al servicio de la vida diaria.

INFONDIAMO UN SENSO DI APPARTENENZA

Città, paesi e quartieri crescono, e con loro anche noi. Lo spazio privato si restringe, ma le nostre esigenze aumentano.

Per recuperare spazio e connessioni, viviamo strade, piazze, stazioni e parchi. Le città devono offrire luoghi pensati per noi, per vivere a pieno la nostra dimensione privata fuori casa.

Quando questi luoghi sono accessibili a tutti, si crea coesione, si riducono le disuguaglianze e ci sentiamo a nostro agio in ogni spazio collettivo.

Questo senso di “casa” lo portiamo nel mondo, ricreando salotti urbani con la collezione SOFA', con GRANDIFIORIERE diamo vita a veri e propri giardini fruibili da tutti e con la bellezza di CABINEDDA lasciamo spazio alla riflessione e alla contemplazione del paesaggio.

WE INSTILL A SENSE OF BELONGING

Cities, towns and neighbourhoods are growing, and with them, so are we. Private space shrinks, but our needs increase.

To retrieve space and connections, we live in streets, squares, stations and parks. Cities must offer places designed for us to fully experience our private dimension outside the home.

When these places are accessible to all, cohesion is created, inequalities are reduced and we feel comfortable in any collective space.

We bring this feeling of “home” to the world, recreating urban living rooms with the SOFA' collection; with GRANDIFIORIERE we give life to real gardens that can be enjoyed by everyone, and with the beauty of CABINEDDA we leave space for reflection and contemplation of the landscape.

NOUS INSTILLONS UN SENTIMENT D'APPARTENANCE

Nous insufflons un sentiment d'appartenance dans des villes et des quartiers qui évoluent avec nous.

Aujourd'hui, alors que l'espace privé se réduit, nous recherchons à l'extérieur cette connexion et cet épanouissement personnel.

Nous vivons les rues, les places et les parcs, en quête de lieux où nous exprimer et nous sentir chez nous, même hors de nos murs.

Créer des espaces accessibles à tous renforce la cohésion et réduit les inégalités, faisant de chaque espace collectif un lieu accueillant.

Nous apportons ce sens du « chez soi » dans le monde, en créant des salons urbains avec la collection SOFA', en donnant vie à de véritables jardins accessibles à tous avec GRANDIFIORIERE, et en laissant place à la réflexion et à la contemplation du paysage avec la beauté de CABINEDDA.

TRANSMITIMOS UN SENTIDO DE PERTENENCIA

Infundimos un sentido de pertenencia en ciudades y barrios que crecen con nosotros.

Hoy, con espacios privados cada vez más reducidos, buscamos en el exterior esa conexión y realización personal.

Vivimos las calles, plazas y parques, en busca de lugares que nos permitan expresarnos y sentirnos en casa, incluso fuera de nuestro hogar.

Crear espacios accesibles para todos fomenta la cohesión y reduce las desigualdades, convirtiendo cada espacio colectivo en un lugar acogedor.

Llevamos esta sensación de «hogar» al mundo, recreando salones urbanos con la colección SOFA', con GRANDIFIORIERE damos vida a verdaderos jardines que pueden ser disfrutados por todos, y con la belleza de CABINEDDA dejamos espacio para la reflexión y la contemplación del paisaje.

PORTIAMO RISPETTO PER L'AMBIENTE

Portiamo rispetto per l'ambiente andando oltre ciò che già facciamo.

Pur utilizzando solo energia da fonti 100% sostenibili e certificate, con oltre 7.500 pannelli solari che evitano l'emissione di 850 tonnellate di CO₂ all'anno, non ci fermiamo qui.

Selezioniamo fornitori con cura, utilizziamo materiali riciclabili e ottimizziamo i processi produttivi, ma continuiamo a spingerci oltre.

Investiamo in ricerca e sviluppo per trovare materiali ancora più ecosostenibili e migliorare i nostri processi, affinché l'arredo urbano sia durevole, riutilizzabile e e da smaltire una volta concluso il suo naturale ciclo di vita.

Il nostro obiettivo è contribuire a rendere più sostenibili tutte le città.

WE CARE ABOUT THE ENVIRONMENT

We respect the environment by going beyond what we already do. While we use only 100% certified sustainable energy, with over 7,500 solar panels preventing the emission of 850 tons of CO₂ per year, we don't stop there.

We carefully select suppliers, use recyclable materials, and optimize production processes, but we continue to push further.

We invest in research and development to discover even more eco-friendly materials and improve our processes, ensuring that urban furniture is durable, reusable, and easy to dispose of at the end of its life cycle.

Our goal is to help make all cities more sustainable.

Ph. Joana Moreira

NOUS RESPECTONS L'ENVIRONNEMENT

Nous respectons l'environnement en allant au-delà de ce que nous faisons déjà.

Bien que nous utilisions uniquement une énergie 100% durable et certifiée, avec plus de 7 500 panneaux solaires évitant l'émission de 850 tonnes de CO₂ par an, nous ne nous arrêtons pas là.

Nous sélectionnons nos fournisseurs avec soin, utilisons des matériaux recyclables et optimisons nos processus de production, mais nous allons encore plus loin.

Nous investissons dans la recherche et le développement pour découvrir des matériaux encore plus écologiques et améliorer nos procédés, afin que le mobilier urbain soit durable, réutilisable et facilement recyclable en fin de vie.

Notre objectif est de contribuer à rendre toutes les villes plus durables.

Nous voulons changer les règles du jeu et rendre les projets de mobilier urbain et nos villes plus durables.

RESPETAMOS EL MEDIO AMBIENTE

Respetamos el medioambiente y vamos más allá de lo que ya hacemos. Aunque utilizamos solo energía 100% sostenible y certificada, con más de 7.500 paneles solares que evitan la emisión de 850 toneladas de CO₂ al año, no nos detenemos ahí.

Seleccionamos cuidadosamente a nuestros proveedores, utilizamos materiales reciclables y optimizamos los procesos de producción, pero seguimos buscando más.

Invertimos en investigación y desarrollo para encontrar materiales aún más ecológicos y mejorar nuestros procesos, garantizando que el mobiliario urbano sea duradero, reutilizable y fácil de reciclar al final de su ciclo de vida.

Nuestro objetivo es contribuir a hacer más sostenibles todas las ciudades.

AMIAMO IL DESIGN E LA LIBERTÀ CREATIVA

Crediamo nel design che conquista con estetica e funzionalità, nell'industrializzazione che trasforma le idee in prodotti e nel valore della creatività umana.

Il nostro team interno di esperti professionisti e giovani promettenti crea prodotti per permettervi di firmare il mondo con i vostri progetti, unici e inconfondibili.

Sviluppiamo prodotti con uno stile inconfondibile, dove modularità e funzionalità si fondono per dare massima libertà espressiva ai vostri progetti urbani.

WE LOVE DESIGN AND CREATIVE FREEDOM

We believe in design that conquers with aesthetics and functionality, industrialisation that turns ideas into products, and the value of human creativity.

Our in-house team of experienced professionals and promising young people create products to allow you to sign the world with your unique and unmistakable designs.

We develop products with an unmistakable style, where modularity and functionality come together to give maximum freedom of expression to your urban projects.

NOUS AIMONS LE DESIGN ET LA LIBERTÉ CRÉATIVE

Nous croyons au design qui conquiert par son esthétique et sa fonctionnalité, à l'industrialisation qui transforme les idées en produits et à la valeur de la créativité humaine.

Notre équipe interne, composée de professionnels expérimentés et de jeunes gens prometteurs, crée des produits qui vous permettent de signer le monde de vos conceptions uniques et incomparables.

Nous développons des produits au style unique, où la modularité et la fonctionnalité s'allient pour donner une liberté d'expression maximale à vos projets urbains.

AMAMOS EL DISEÑO Y LA LIBERTAD CREATIVA

Creemos en el diseño que conquista con estética y funcionalidad, en la industrialización que convierte las ideas en productos y en el valor de la creatividad humana.

Nuestro equipo interno, formado por profesionales experimentados y jóvenes promesas, crea productos que le permitirán firmar el mundo con sus diseños únicos e inconfundibles.

Desarrollamos productos con un estilo inconfundible, donde modularidad y funcionalidad se unen para dar la máxima libertad de expresión a tus proyectos urbanos.

SAPER FARE CON *STILE*

Crediamo nella creatività, ma sappiamo che per realizzarla servono tecnica, know-how e capacità produttiva.

Siamo un'azienda di professionisti, ciascuno con le proprie competenze.

Facciamo parte di Agora Makers, un Gruppo internazionale specializzato in arredo urbano e illuminazione pubblica, dove tecnologie innovative incontrano la nostra abilità di lavorare l'acciaio, l'alluminio, il legno e il cemento.

Investiamo in ricerca, macchinari e tecniche produttive per ottenere prestazioni sempre migliori e certificate, nel rispetto dell'ambiente.

Il nostro scientific lab, Atoms, si occupa di ricerca scientifica e chimica per sviluppare nuovi materiali e processi sostenibili.

Infine, ascoltiamo e soddisfiamo le esigenze dei nostri clienti grazie al nostro team, alle filiali in tutto il mondo e alla nostra rete di partner commerciali.

Tutto questo è nel nostro *STILE*.

WE KNOW-HOW WITH *STILE*

We believe in creativity, but we know that to realise it you need technique, know-how and production capacity.

We are a company of professionals, each with their own skills.

We are part of Agora Makers, an international Group specialised in street furniture and public lighting, where innovative technologies meet our ability to work with steel, aluminium, wood and concrete.

We invest in research, machinery and production techniques to achieve ever better and certified performance while respecting the environment.

Our scientific lab, Atoms, focuses on scientific and chemical research to develop new sustainable materials and processes.

Finally, we listen to and satisfy our customers' needs thanks to our team, our subsidiaries around the world and our network of business partners.

All this is in our *STILE*.

SAVOIR FAIRE AVEC *STILE*

Nous croyons en la créativité, mais nous savons que pour la réaliser, il faut de la technique, du savoir-faire et une capacité de production.

Nous sommes une entreprise de professionnels, chacun avec ses propres compétences.

Nous faisons partie d'Agora Makers, un Groupe international spécialisé dans le mobilier urbain et l'éclairage public, où les technologies innovantes rencontrent notre capacité à travailler l'acier, l'aluminium, le bois et le béton.

Nous investissons dans la recherche, les machines et les techniques de production pour obtenir des performances toujours meilleures et certifiées, tout en respectant l'environnement.

Notre laboratoire scientifique, Atoms, se concentre sur la recherche scientifique et chimique pour développer de nouveaux matériaux et procédés durables.

Enfin, nous écoutons et satisfaisons les besoins de nos clients grâce à notre équipe, nos filiales dans le monde entier et notre réseau de partenaires commerciaux.

Tout cela est dans notre *STILE*.

SABER HACER CON *STILE*

Creemos en la creatividad, pero sabemos que para llevarla a cabo hacen falta técnica, conocimientos y capacidad de producción.

Somos una empresa de profesionales, cada uno con sus competencias.

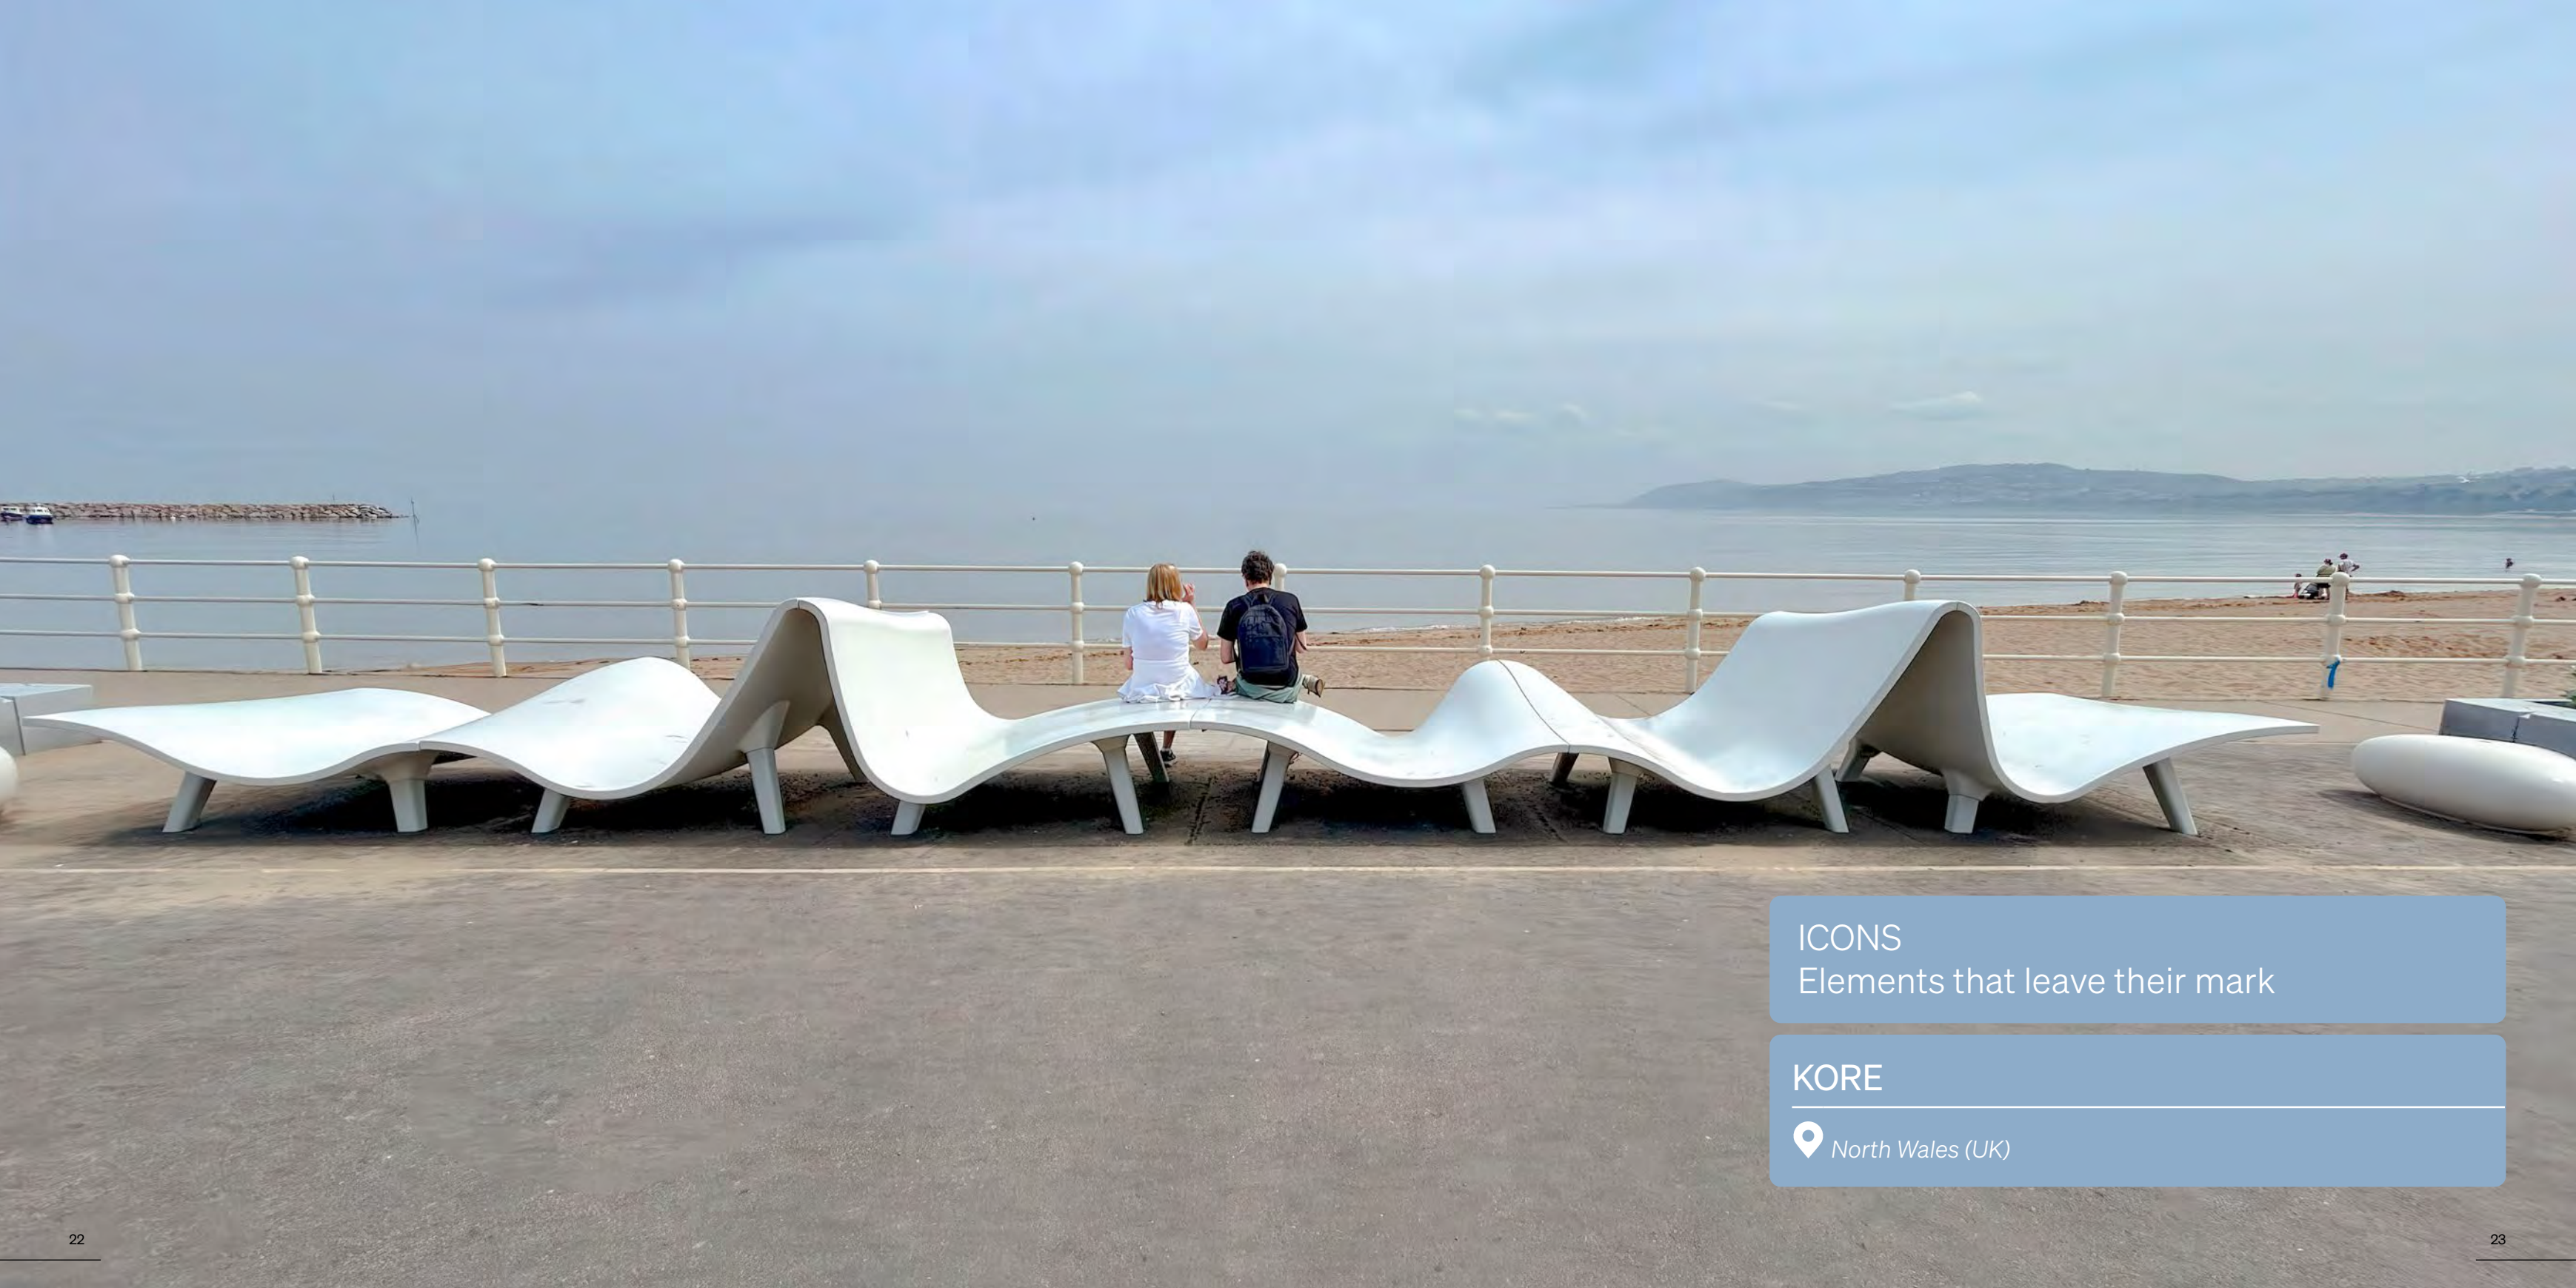

Formamos parte de Agora Makers, un Grupo internacional especializado en mobiliario urbano e iluminación pública, donde las tecnologías innovadoras se unen a nuestra capacidad para trabajar el acero, el aluminio, la madera y el hormigón.

Invertimos en investigación, maquinaria y técnicas de producción para lograr prestaciones cada vez mejores y certificadas, respetando al mismo tiempo el medio ambiente.

Nuestro laboratorio científico, Atoms, se centra en la investigación científica y química para desarrollar nuevos materiales y procesos sostenibles.

Por último, escuchamos y satisfacemos las necesidades de nuestros clientes gracias a nuestro equipo, nuestras filiales en todo el mundo y nuestra red de socios comerciales.

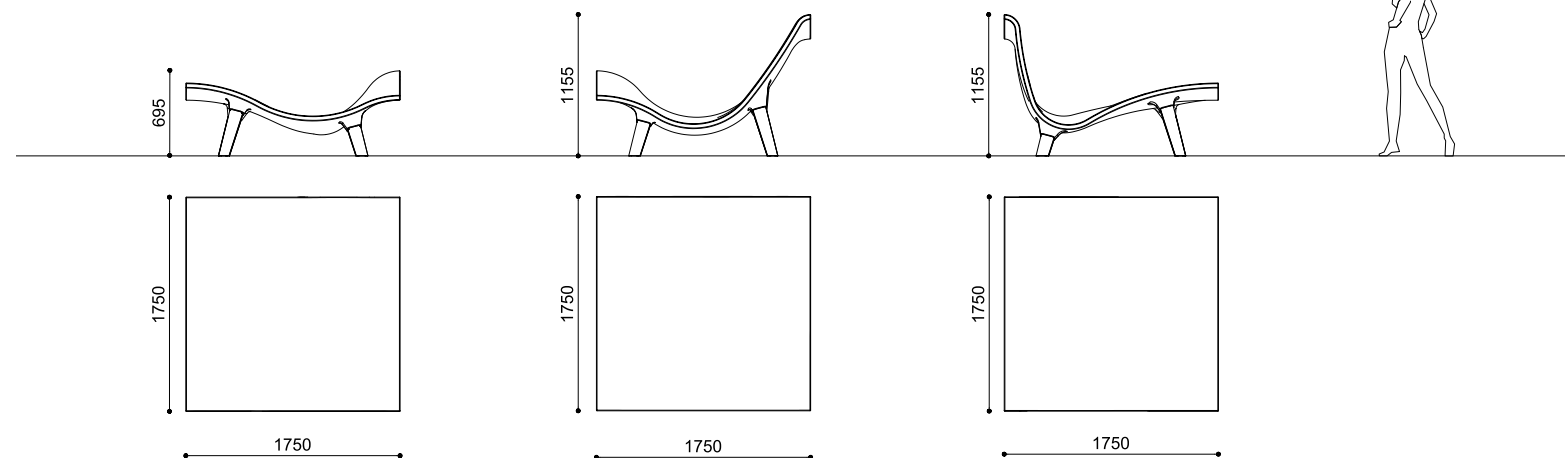

Todo ello con nuestro *STILE*.

The Speakers

"There was something about these people. I mean, what makes somebody want to come down week after week and behave in that way? Were they mad?"

Winston Churchill's famous speech to the House of Commons in 1940.

Predisposición para tacos

Optional:

Panca in acciaio - Parete laterale in vetro o in lamiera forata - Timpano in metacrilato - Bacheca informativa di fondo - Parete pubblicitaria laterale - Targa portainsegna - Illuminazione

Steel bench - Side wall in glass or perforated steel sheet - Information board - Advertisement side wall - Sign plate - LED lighting system

Banc en acier - Paroi latérale en verre ou en tôle perforée - Tympan en métacrylate - Tableau d'information de fond - Paroi publicitaire latérale - Plaque porte-enseigne - Système d'éclairage

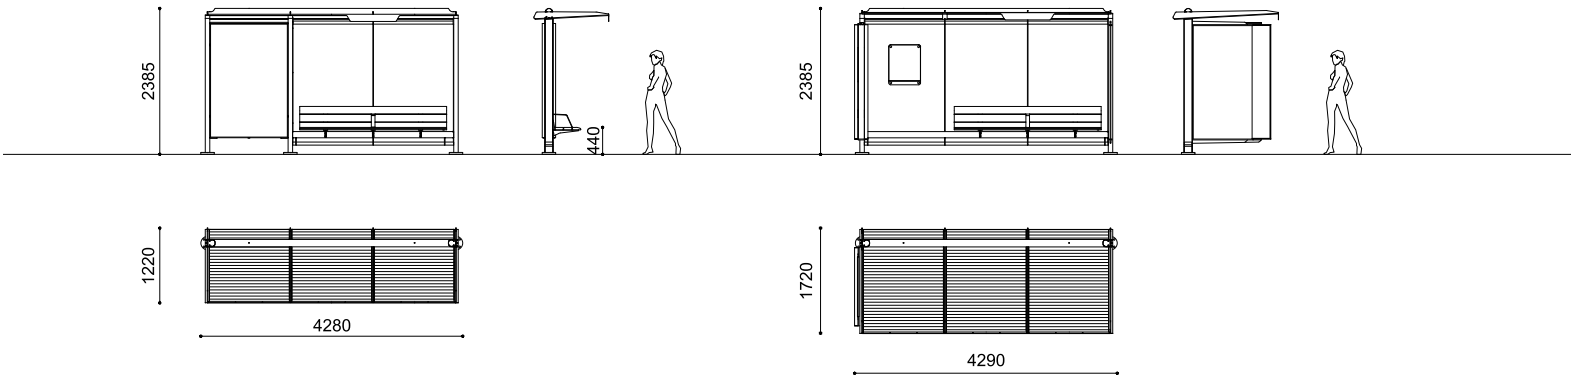

Banco en acero - Cerramiento lateral en vidrio o chapa perforada - Tympano en metacrilato - Panel informativo en el cerramiento de fondo - Vitrina publicitaria lateral - Placa identificación parada - Iluminación

SCELTE SOSTENIBILI
SUSTAINABLE CHOICES
CHOIX DURABLES
ELECCIONES SOSTENIBLES

Ogni oggetto di arredo urbano nasconde una storia, quella dei suoi materiali: l'attenzione con cui vengono scelti, la tecnica con cui vengono trasformati.

Amiamo l'acciaio: lo conosciamo a fondo, lo lavoriamo con cura e passione.

Fin dall'inizio abbiamo creduto nella forza del colore.

Siamo stati i primi a intuire le potenzialità del Corten applicato all'arredo urbano e abbiamo messo a punto un nostro ciclo di maturazione che sfrutta gli agenti atmosferici limitando il consumo di acqua, rendendo ogni singolo prodotto unico e irripetibile.

Scegliamo legni da foreste gestite in modo responsabile e li trattiamo con le attenzioni che un materiale vivo necessita.

Ci interroghiamo ogni giorno su quali saranno le soluzioni del futuro: ci siamo innamorati della sostenibilità e dell'incredibile facilità del WPC e dell'elegante praticità dell'HPL.

Ci lasciamo ispirare dal cemento, dalla sua forza espressiva e dalla sua natura materica.

Non ci stanchiamo mai di studiarlo, di evolverlo e renderlo sempre più performante e sostenibile.

Behind every piece of street furniture there is the story of the materials composing it: the care with which we select them, and the techniques used to transform them.

We love steel: we understand it intimately, and craft it with great care and passion.

Right from the start, we have always believed in the power of colour.

We have been the first to understand the potential of using Corten in street furniture and we have developed our own maturation process exploiting atmospheric agents by limiting the use of water, ensuring every single product unique and a oneoff.

We choose wood from responsibly managed forests and treat it with the care that a living material deserves.

Every day, we ask ourselves what solutions will be required in the future: we have enthusiastically embraced issues concerning sustainability, the incredible flexibility of PC, and the elegant practicality of HPL.

We have let ourselves be inspired by concrete, its expressive power and material nature.

We get never tired of studying it, developing it, and making it perform better and in a more sustainable way.

Chaque objet de mobilier urbain cache une histoire, celle de ses matériaux: l'attention apportée à leur sélection, la technique de leur transformation.

Nous aimons l'acier: nous le connaissons parfaitement, nous le travaillons soigneusement et avec passion.

Dès le départ nous avons eu confiance en la force de la couleur.

Nous avons été les premiers à comprendre le potentiel du Corten appliqué sur le mobilier urbain et nous avons mis au point un cycle de maturation qui tire parti des agents atmosphériques en limitant la consommation d'eau et en rendant chaque produit unique et incomparable.

Nous sélectionnons des bois provenant de forêts gérées de façon responsable et nous les traitons avec toutes les attentions dont un matériau vivant à besoin.

Nous nous interrogeons chaque jour sur les solutions du futur: nous sommes tombés sous le charme de la durabilité et de l'incroyable facilité du WPC et du côté pratique de l'HPL.

Nous nous laissons inspirer par le béton, par sa force d'expression et par sa nature.

Nous ne nous laissons jamais de l'étudier, de le faire évoluer et de le rendre toujours plus performant et durable.

Cada objeto de mobiliario urbano esconde una historia, la de sus materiales: la atención con la que se seleccionan, la técnica con la que se elaboran.

Nos encanta el acero: lo conocemos a fondo, lo trabajamos con especial cuidado y pasión.

Desde el principio, hemos creído en la fuerza del color.

Hemos sido de los primeros en entender la potencialidad del Corten en el mobiliario urbano y hemos desarrollado un ciclo de maduración propio que, aprovecha los agentes atmosféricos, limitando el consumo de agua, lo que convierte cada producto en único e irrepetible.

Elegimos maderas de bosques gestionados de forma responsable y las tratamos con la atención que un material vivo requiere.

Nos preguntamos todos los días cuáles podrían ser las soluciones del futuro: estamos encantados con la sostenibilidad y la increíble facilidad de WPC, así como con la elegante practicidad de HPL.

Nos dejamos inspirar por el hormigón, por su fuerte expresividad y por la naturaleza del material.

No nos cansamos de estudiarlo, de hacer que evolucione y hacerlo de la forma más eficaz y sostenible.

ACCIAIO VERNICIATO - ALLUMINIO VERNICIATO - POWDER COATED STEEL - POWDER COATED ALUMINUM
ACIER THERMOLAQUÉ - ALUMINIUM THERMOLAQUÉ - ACERO PINTADO EN POLVO - ALUMINIO PINTADO EN POLVO

Per ogni prodotto e componente in acciaio scegliamo la materia prima e i trattamenti più idonei in base al nostro ciclo produttivo e alle necessità di ciascun design.

Tra i nostri trattamenti per l'acciaio ci sono la zincatura a caldo e a freddo, la zincatura Sendzimir, la cataforesi e la verniciatura primer.

Per i nostri prodotti e componenti in alluminio utilizziamo alluminio in lastra o in estrusione o in fusione.

Successivamente verniciamo l'acciaio, l'acciaio inox e l'alluminio con polvere poliestere, in conformità alla norma EN ISO 12944-2.

Mettiamo a disposizione un'ampia gamma di colorazioni RAL standard con finitura raggrinzante con diversi livelli di goffratura, mentre solo dove è prevista la personalizzazione tramite adesivi, tampografia o serigrafia per ragioni tecniche la finitura è liscia opaca o lucida secondo fattibilità tecnica. Proponiamo anche le esclusive colorazioni SABLE', dalla peculiare texture raggrinzata metallizzata.

A richiesta sono disponibili diversi trattamenti e personalizzazioni tra cui verniciatura con colori fuori standard, e/o con finiture liscio opaco e liscio lucido, e/o verniciatura antigraffiti.

A richiesta il ciclo di verniciatura può essere certificato Quality Steel.

Pour chaque produit et composant en acier, nous choisissons la matière première et les traitements les plus appropriés en fonction de notre cycle de production et des besoins de chaque conception.

Nos traitements pour l'acier comprennent la galvanisation à chaud et à froid, la galvanisation Sendzimir, la cataphorèse et le thermolaquage avec primer. Pour nos produits et composants en aluminium, nous utilisons des tôles d'aluminium ou de l'aluminium extrudé ou moulé.

Nous thermolaquons ensuite l'acier, l'acier inoxydable et l'aluminium avec de la poudre de polyester conformément à la norme EN ISO 12944-2.

Nous proposons une large gamme de couleurs RAL standard avec une finition structurée avec différents niveaux de gaufrage, tandis que la finition est lisse, mate ou brillante selon la faisabilité technique, uniquement lorsque la personnalisation au moyen d'autocollants, de tampographie ou de sérigraphie est prévue.

Nous proposons également les couleurs exclusives SABLÉES, avec une texture métallique structurée particulière.

Différents traitements et personnalisations sont disponibles sur demande, notamment la peinture avec des couleurs non standard, avec des finitions lisses mates et brillantes, ou encore la peinture anti-graffiti.

Sur demande, le cycle de peinture peut être certifié Quality Steel.

For every steel product and component, we choose the most suitable raw materials and treatments based on our production cycle and the needs of each design.

Our steel treatments include hot-dip galvanization, cold galvanizing, Sendzimir galvanization, cataphoresis and primer coating.

For our aluminum products and components, we use aluminum in sheet or in extrusion or in casting.

Then we powder coat steel, stainless steel, and aluminum with polyester powder, in accordance with EN ISO 12944-2.

We offer a wide range of standard RAL colors with wrinkled finish with different levels of texture. Only when customization through stickers, pad printing or serigraphy is provided, for technical reasons, their finish will be smooth matte or smooth glossy, depending on the technical feasibility.

We also offer the exclusive SABLE' colours, with a peculiar metallic wrinkled texture.

Upon request, different treatments and customizations are available, such as powder coating with non-standard RAL colors, and/or with smooth matte and smooth glossy finishes, and/or anti-graffiti treatment.

If required, the powder coating process can be certified Quality Steel.

Para cada uno de nuestros productos y componentes en acero, elegimos la materia prima y los tratamientos más idóneos en función de nuestro ciclo productivo y de las exigencias de cada uno de los diseños.

De entre los tratamientos que se pueden aplicar al acero disponemos la galvanización en caliente y en frío, la galvanización Sendzimir, la cataforesi y el tratamiento primer.

Para nuestros productos y componentes en aluminio, utilizamos láminas de aluminio, aluminio extruido o fundido.

Posteriormente, se recubre el acero, el acero inoxidable y el aluminio con pintura en polvo de poliéster, de acuerdo con lo dispuesto en la norma EN ISO 12944-2.

Ponemos a disposición una amplia gama de colores RAL estándar con acabado irregular con diferentes niveles de gofrado, mientras que, solo donde se requiera la personalización con adhesivos, tampografía o serigrafía, por motivos técnicos, el acabado será liso (mate o brillo) según la viabilidad técnica.

Proponemos también la exclusiva coloración SABLE, con una particular textura gofrada metalizada.

Bajo solicitud, disponemos de diferentes tratamientos y personalizaciones, incluyendo pinturas con colores no estándar, y/o con acabados lisos ya sea mate o brillo, y/o pintura anti-graffiti.

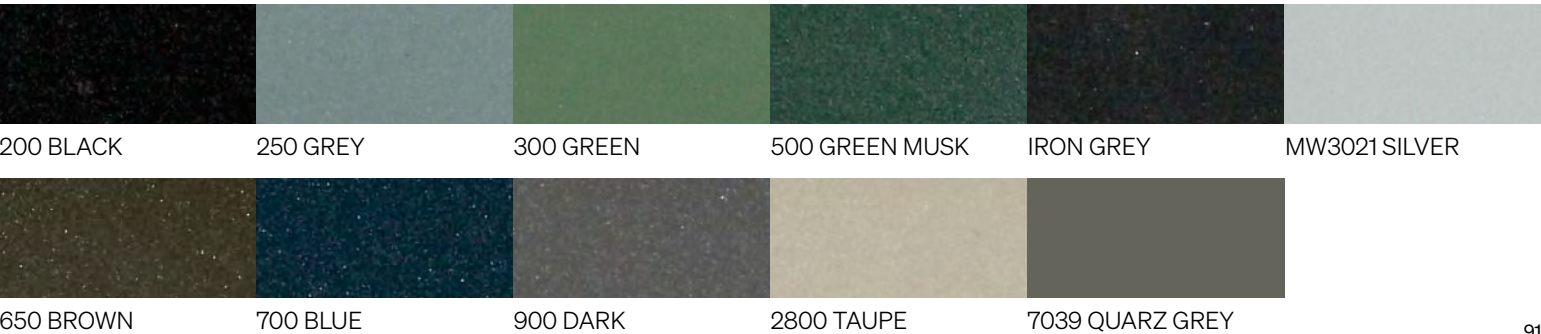

Bajo pedido, el ciclo de pintura puede ser certificado Quality Steel.

RAL

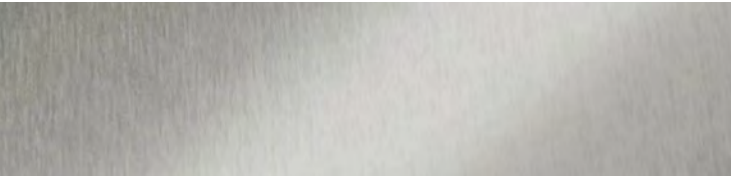

I colori RAL e SABLÉ riportati sono da considerarsi puramente illustrativi.
The mentioned RAL and SABLÉ colours should be considered only illustrative.
Les couleurs RAL et SABLÉ ci-dessus sont pour référence seulement et doivent être considérées comme illustratives.
Los colores RAL y SABLÉ que hemos mencionad deben considerarse sólo ilustrativos.

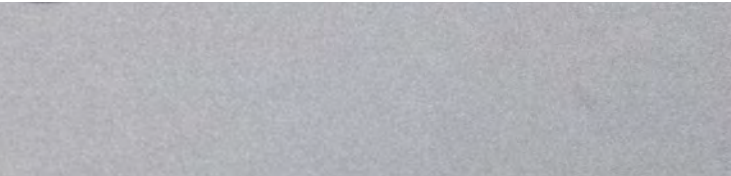

SABLÉ

ACCIAIO INOSSIDABILE - STAINLESS STEEL - ACIER INOXYDABLE - ACERO INOXIDABLE

SATINATO
BRUSHED
SATINÉ
SATINADO

PALLINATO
SHOTBLASTED
GRENAILLÉ
GRANALLADO

Per i nostri prodotti e componenti in acciaio inox di norma utilizziamo acciaio AISI 304 o 304L, in caso di condizioni di posizionamento particolarmente aggressive raccomandiamo di richiedere AISI 316.
Di norma il nostro acciaio inox è satinato o pallinato a seconda delle caratteristiche tecniche del manufatto.
È anche disponibile su richiesta il trattamento di elettrolucidatura.

For our stainless steel products and components, we normally use AISI 304 or 304L stainless steel, but in case of installation in highly aggressive conditions we recommend requesting AISI 316 stainless steel.
Our stainless steel is usually brushed or shotblasted, depending on the technical features of the product.
Electropolishing treatment is also available, upon request.

Pour nos produits et composants en acier inoxydable, nous utilisons normalement l'acier AISI 304 ou 304L; en cas d'utilisation dans un environnement particulièrement agressif, nous recommandons l'acier AISI 316.
Généralement, notre acier inoxydable est satiné ou grenailé selon les caractéristiques techniques du produit.
Un traitement d'électropolissage est également disponible sur demande.

Para nuestros productos y componentes en acero inoxidable, normalmente utilizamos acero AISI 304 o 304L. Sin embargo, aconsejamos, en el caso de que los productos vayan posicionados en lugares particularmente agresivos, de solicitar el acero AISI 316.
Por regla general, nuestro acero inoxidable es satinado o granallado, según las características técnicas del producto.
El tratamiento de electro-pulido está disponible previa solicitud.

ACCIAIO CORTEN - CORTEN STEEL - ACIER CORTEN - ACERO CORTEN

L'acciaio Corten è un materiale “vivo”, mutevole nel tempo, non uniforme nell'aspetto ed ogni prodotto presenta sfumature e colore unici.
Sabbiamo i nostri prodotti in Corten prima di procedere con il nostro processo di ossidazione, studiato per ridurre il consumo d'acqua.
Al fine di ridurre il fisiologico rilascio di perdite di ossido, è disponibile su richiesta il trattamento protettivo antidilavamento.
In ambienti particolarmente salini il Corten può avere un comportamento difforme, raccomandiamo di valutarne l'opportunità di posizionamento.

Corten steel is a “living” material, changeable over time, not uniform in appearance and each product has unique shades and colors.
We sandblast our products in Corten steel, before proceeding with the oxidation process, designed to imit water consumption.
To reduce physiological leak of oxide, upon request. antiwashout treatment is available.
In particularly saline environments. Corten steel may have a different reaction, we recommend evaluating the positioning.

L'acier Corten est un matériau «vivant», variable dans le temps, d'aspect non uniforme et chaque produit a des nuances et des couleurs uniques.
Nous sablons nos produits en Corten avant de procéder à notre processus d'oxydation, destiné à réduire la consommation d'eau.
Afin de réduire la libération physiologique des fuites d'oxyde, le traitement protecteur anti-délavement est disponible sur demande.
En milieu particulièrement salin, le Corten peut se comporter différemment, nous vous recommandons de bien évaluer son positionnement.

El acero Corten es un material “vivo”, que cambia con el tiempo, con una apariencia desigual.
lo que hace que cada producto presente sombras y colores únicos.
Pulimos con un chorro de arena a todos nuestros productos en Corten, antes de continuar con nuestro proceso de oxidación, reduciendo así el consumo de agua.
Con el fin de reducir las pérdidas de oxido propias del material Corten, previa solicitud. está disponible el tratamiento de protección “antidilavamento” (anti-lavado).
En ambientes particularmente salinos, el Corten puede comportarse de manera diferente, recomendamos, por tanto, evaluar la idoneidad del posicionamiento.

LEGNO - WOOD - BOIS - MADERA

Per i nostri prodotti utilizziamo diverse tipologie di legno, tra cui legno duro, legno di pino termo-trattato* o legno di Okumè.

Il legno duro viene sottoposto ad un trattamento di impregnatura pigmentata a base d'acqua.

Su richiesta del cliente il legno può essere lasciato naturale.

Il legno di pino* viene sottoposto al trattamento termico, ottenendo così un materiale con un ciclo di vita più lungo, maggiore resistenza agli agenti atmosferici ed alla decomposizione, maggiore solidità e stabilità dimensionale che assume la denominazione di pino termo-trattato.

Su richiesta può essere fornito con trattamento di impregnatura pigmentato a base d'acqua.

I prodotti in legno di Okumè sono sempre forniti con verniciatura a base d'acqua.

Il legno di pino termo-trattato e il legno duro, a richiesta, possono essere forniti con certificato FSC.

*Il legno di pino termo-trattato presenta nodi più o meno grandi.

PINO TERMO-TRATTATO - THERMO-TREATED PINE - PIN THERMO-TRAITÉ - MADERA DE PINO TRATADA TÉRMICAMENTE

PINO TERMO-TRATTATO IMPREGNATO - THERMO-TREATED PINE WITH PIGMENTED IMPREGNATION
PIN THERMO-TRAITÉ IMPRÉGNÉ - MADERA DE PINO TRATADA TÉRMICAMENTE IMPREGNADA

Nous utilisons différents types de bois pour nos produits, notamment du bois dur, du bois de pin thermo-traité* ou du bois d'Okumè.

Le bois dur est fourni avec un traitement d'imprégnation pigmenté à base d'eau.

À la demande du client, le bois peut être laissé naturel.

Le bois de pin* subit un traitement thermique, ce qui permet d'obtenir un matériau ayant un cycle de vie plus long, une plus grande résistance aux intempéries et à la décomposition, une plus grande solidité et stabilité dimensionnelle.

Sur demande, il peut être fourni avec un traitement d'imprégnation pigmenté à base d'eau.

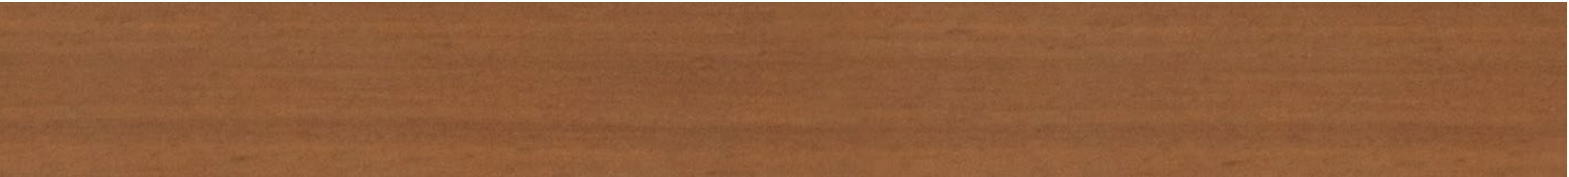

Les produits en bois d'okoumé sont toujours fournis avec un vernis à base d'eau.

Le pin thermo-traité et le bois dur peuvent être fournis avec un certificat FSC sur demande.

*Le bois de pin thermo-traité présente des noeuds plus ou moins gros.

UHPC (ULTRA HIGH PERFORMANCE CONCRETE)

Il nostro UHPC (cemento ad elevatissima prestazione), è disponibile in tre colorazioni, bianco, grigio e grigio scuro, e fornito con finitura ALFA- liscio naturale. Caratterizzato da aspetto materico, l'UHPC può presentare effetti nuvolati di colore non uniforme e leggere cavillature, aspetti fisiologici di queste tipologie di materiale. I prodotti finiti poi sono trattati con una vernice protettiva, su richiesta è possibile applicare il trattamento antigraffiti.

Notre UHPC (béton fibré ultra hautes performances) est disponible en trois couleurs, blanc, gris et gris foncé, et est livré avec une finition ALFA- lisse naturelle. Caractérisé par son aspect matériel, l'UHPC peut présenter des effets nuageux de couleur non uniforme et de légères craquelures, aspects physiologiques de ce type de matériau. Les produits finis sont ensuite traités avec une peinture de protection; sur demande il est possible d'appliquer le traitement anti-graffiti.

Our UHPC (Ultra High Performance Concrete) is available in three different colors, white, grey and dark grey, provided with ALFA- natural smooth finish. Characterized by textured appearance, UHPC can present not uniform cloudy effects of color and light cracks, which are physiological aspects of this material. The finished products are treated with a protective varnish, and upon request, anti-graffiti treatment can be also applied.

Nuestro UHPC (Ultra Performance Concrete) está disponible en tres colores blanco, gris y gris oscuro y el acabado es ALFA- liso natural. Caracterizado por un aspecto material, el UHPC puede presentar un color que no es uniforme, así como ligeras grietas, en ambos casos se trata de aspectos fisiológicos de este tipo de material. Una vez los productos están terminados se les aplica un barniz protector y previa solicitud, es posible aplicar el tratamiento anti-graffiti.

UHPC BIANCO - WHITE - BLANC - BLANCO

UHPC GRIGIO - GREY - GRIS - GRIS

UHPC GRIGIO SCURO - DARK GREY - GRIS FONCÉ - GRIS OSCURO

N.B.: Le immagini riprodotte in queste pagine sono puramente indicative. Per maggiori informazioni sui materiali consultare il sito web.

HPC (HIGH PERFORMANCE CONCRETE)

Il nostro HPC (cemento ad elevata prestazione), è disponibile in cinque colorazioni (bianco, grigio, grigio scuro, verde e giallo) e fornito, di norma, con finitura VELLUTO - liscio naturale. Caratterizzato da aspetto materico, l'HPC può presentare effetti nuvolati di colore non uniforme e leggere cavillature, aspetti fisiologici di queste tipologie di materiale. Su richiesta, ove tecnicamente fattibile, è possibile effettuare operazioni di levigatura. I prodotti finiti poi sono trattati con una vernice protettiva, su richiesta è possibile applicare il trattamento antigraffiti.

Notre HPC (béton hautes performances) est disponible en cinq couleurs (blanc, gris, gris foncé, vert et jaune) et il est habituellement livré avec une finition VELLUTO - lisse naturelle. Caractérisé par son aspect matériel, l'HPC peut présenter des effets nuageux de couleur non uniforme et de légères craquelures, aspects physiologiques de ces types de matériaux. Des opérations de polissage peuvent être effectuées sur demande, lorsque cela est techniquement possible. Les produits finis sont ensuite traités avec une peinture de protection; sur demande il est possible d'appliquer le traitement anti-graffiti.

Our HPC is available in five different colors (white, grey, dark grey, green and yellow) and it is provided, as standard, with VELLUTO – natural smooth finish. Characterized by textured appearance, HPC can present not uniform cloudy effects of color and light cracks, which are physiological aspects of this material. Upon request, when technically feasible, it is possible to perform polishing operations. The finished products are treated with a protective varnish, and upon request, anti-graffiti treatment can be also applied.

Nuestro HPC (Cemento a elevada prestación) está disponible en cinco colores (blanco, gris, gris oscuro, verde y amarillo) y el acabado es VELLUTO - liso natural. Caracterizado por un aspecto material, el HPC puede presentar un color que no es uniforme, así como ligeras grietas, en ambos casos se trata de aspectos fisiológicos de este tipo de material. Previa solicitud y siempre que técnicamente sea factible, es posible pulir en parte o totalmente el producto, para conseguir un acabado totalmente liso. Una vez los productos están terminados se les aplica un barniz protector y previa solicitud, es posible aplicar el tratamiento anti-grafiti.

PDM PIETRE RICOSTITUITE - RECONSTITUED STONES - PIERRES RECONSTITUÉES - PIEDRAS RECONSTITUIDAS

Il nostro PDM (Pietre Ricostituite) è una miscela di cemento e inerti che combina la resistenza del cemento e l'eleganza della pietra naturale.
È disponibile in quattro opzioni con granito bianco, con granito grigio, con marmo bianco e con marmo nero.
I nostri prodotti sono, di norma, forniti con finitura sabbiata e con le superfici di seduta piane spazzolate.
Su richiesta, se il prodotto lo permette, è possibile effettuare operazioni di levigatura.
I prodotti finiti sono poi trattati con una vernice ravvivante, su richiesta è possibile applicare il trattamento antigraffiti.

Notre PDM (Pierres Reconstituées) est un mélange de béton et d'agrégats qui combine la résistance du béton et l'élégance de la pierre naturelle.
Il est disponible en quatre options avec du granit blanc, avec du granit gris, avec du marbre blanc et avec du marbre noir.
Nos produits sont habituellement fournis avec une finition sablée et des surfaces d'assise planes brossées.
Des opérations de polissage peuvent être effectuées sur demande, lorsque le produit le permet.
Les produits finis sont ensuite traités avec une peinture revitalisante; sur demande il est possible d'appliquer le traitement anti-graffiti.

Our PDM (Reconstitued Stones) is a mixture of concrete and aggregates that combines concrete resistance with natural stone elegance.
It is available in four options with white granite, with grey granite, with white marble, and with black marble.
Our products are normally provided with sandblasted finish and with brushed finish for the seating flat surfaces.
Upon request, if the product allows it, it is possible to perform polishing operations.
The finished products are treated with a revitalizing varnish and, if requested, anti-graffiti treatment can be applied.

Nuestro PDM es una mezcla de cemento y áridos que combina la resistencia del hormigón y la elegancia de la piedra natural.
Está disponible en 4 versiones: con granito blanco, con granito gris, con mármol blanco y con mármol negro.
Generalmente, en los productos en PDM, las superficies planas dedicadas para sentarse se fabrican con un pulido que llamamos “spazzolato” (acabado hecho con púas rígidas), mientras que el resto de las superficies tienen un acabado que llamamos “sabbiato” (pulido con chorro de arena).
Prevía solicitud y siempre que técnicamente sea factible, es posible pulir en parte o totalmente el producto, para conseguir un acabado totalmente liso.
Una vez los productos están terminados se les aplica un barniz protector y previa solicitud, es posible aplicar el tratamiento anti-graffiti.

PIETRA SINTERIZZATA - SINTERED STONE - PIERRE SINTÉRISÉE - PIEDRA SINTERIZADA

La pietra sinterizzata è un materiale ultracompatto e a emissioni neutre di carbonio, realizzata con un processo di produzione industriale. È infatti costituita da una miscela di minerali naturali selezionati atomizzati (feldspati, ossidi minerali, argilla, silicio e molti altri), nessun additivo chimico, nessuna resina o collante, compattati attraverso procedimenti industriali che migliorano le proprietà fisico-meccaniche della pietra naturale, conferendo al prodotto le massime prestazioni.

La pierre sintérisée est un matériau ultra-compact et neutre en carbone, fabriqué par un processus industriel. Elle est composée d'un mélange de minéraux naturels atomisés soigneusement sélectionnés (feldspaths, oxydes minéraux, argile, silicium et bien d'autres), sans aucun additif chimique, résine ou colle. Ces éléments sont compactés grâce à des procédés industriels qui améliorent les propriétés physico-mécaniques de la pierre naturelle, garantissant des performances maximales.

Sintered stone is an ultra-compact, carbon-neutral material produced through an industrial manufacturing process. It is composed of a mixture of selected atomized natural minerals (feldspars, mineral oxides, clay, silicon, and many others), without any chemical additives, resins, or adhesives. These are compacted through industrial processes that enhance the physical and mechanical properties of natural stone, providing the highest performance.

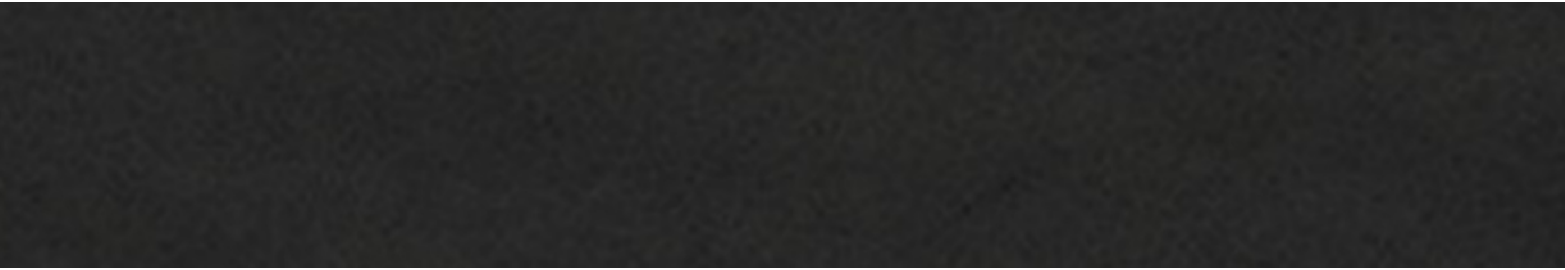

La piedra sinterizada es un material ultracompacto y neutro en carbono, producido mediante un proceso de fabricación industrial. Está compuesta por una mezcla de minerales naturales atomizados seleccionados (feldspatos, óxidos minerales, arcilla, silicio y muchos otros), sin aditivos químicos, resinas ni adhesivos. Estos se compactan mediante procesos industriales que mejoran las propiedades físico-mecánicas de la piedra natural, ofreciendo el máximo rendimiento.

VETRORESINA - FIBERGLASS - FIBRE DE VERRE - FIBRA DE VIDRIO

Su alcuni prodotti, in alternativa all'HPC (High Performance Concrete), Metalco propone la vetroresina. La vetroresina, o VTR, è un tipo di plastica rinforzata con fibre di vetro, in forma di TNT (tessuto non tessuto e feltro a fibre orientate casualmente) impregnato con resine termoindurenti, che indurisce dopo la lavorazione per intervento di un catalizzatore ed un acceleratore. Successivamente viene steso un fondo epossidico, e poi finito con una vernice poliuretanica con colore a scelta tra la gamma RAL di Metalco.

Pour certains produits, en alternative au HPC (High Performance Concrete), Metalco propose la fibre de verre. La fibre de verre, ou PRV, est un type de plastique renforcé avec des fibres de verre, sous forme de tissu non tissé (TNT) et de feutre à fibres orientées aléatoirement, imprégné de résines thermodurcissables qui durcissent après traitement sous l'effet d'un catalyseur et d'un accélérateur. Une sous-couche époxy est ensuite appliquée, suivie d'une peinture polyuréthane dans la couleur choisie parmi la gamme RAL de Metalco.

For some products, as an alternative to HPC (High Performance Concrete), Metalco offers fiberglass. Fiberglass, or GFRP, is a type of plastic reinforced with glass fibers, in the form of non-woven fabric and randomly oriented fiber felt, impregnated with thermosetting resins that harden after processing through the action of a catalyst and an accelerator. An epoxy primer is applied, followed by a polyurethane paint finish in a colour chosen from Metalco's RAL range.

Para algunos productos, como alternativa al HPC (High Performance Concrete), Metalco ofrece la fibra de vidrio. La fibra de vidrio, o PRFV, es un tipo de plástico reforzado con fibras de vidrio, en forma de tejido no tejido (TNT) y fieltro de fibras orientadas aleatoriamente, impregnado con resinas termoendurecibles que se endurecen después del proceso gracias a la acción de un catalizador y un acelerador. Luego se aplica una imprimación epoxi y, posteriormente, un acabado con pintura de poliuretano en el color elegido dentro de la gama RAL de Metalco.

RAL

I colori RAL riportati sono da considerarsi puramente illustrativi.
The mentioned RAL colours should be considered only illustrative.
Les couleurs RAL ci-dessus sont pour référence seulement et doivent être considérées comme illustratives.
Los colores RAL que hemos mencionad deben considerarse sólo ilustrativos.

Sappiamo che tutta la tensione creativa a servizio di un'urbanizzazione sostenibile non è comprimibile nelle pagine di un catalogo, per questo pensiamo che sia necessario muoverci oltre la carta stampata.

Siamo un'azienda fatta di risorse, reali e virtuali, restate in contatto con noi visitando il nostro sito www.metalco.it e seguendoci sui social, per rimanere sempre aggiornati e scoprire tutte quelle piccole grandi attenzioni che l'arredo urbano richiede.

Dai controlli periodici, alle corrette operazioni di pulizia, fino alle manutenzioni, condividiamo con voi il nostro know-how perché ogni oggetto di arredo urbano ha un valore che va protetto e rispettato.

SEGUI LO STILE! LET'S FOLLOW THE STILE!

We know that the creative energy that goes into sustainable urbanization cannot be compressed within the pages of a catalogue. That is why we think it is important to move beyond printed paper.

We are a company made up of resources, both tangible and virtual. Stay in touch with us by visiting our website www.metalco.it and by following us on our social media channels to stay up to date and to discover the great dedication to details that goes into all our street furniture.

From periodic checks, to correct cleaning operations, right through to maintenance, we share our know-how with you, because every object of street furniture has a value that must be protected and respected.

Nous savons que tout le potentiel créatif au service d'une urbanisation durable ne peut être synthétisé sur les pages d'un catalogue, c'est pourquoi nous pensons qu'il faut aller au-delà du papier imprimé.

Nous sommes une entreprise faite de ressources, réelles et virtuelles; restez avec nous et visitez notre site www.metalco.it et suivez-nous sur les réseaux sociaux pour rester informés et découvrir toutes les petites et les grandes attentions que le mobilier urbain requière.

Des contrôles périodiques, aux opérations de nettoyage adéquates, jusqu'à l'entretien, nous partageons avec vous notre savoir-faire car chaque objet d'aménagement urbain possède une valeur qui doit être protégée et respectée.

SUIVEZ LE STILE! SIGUE EL STILE!

Sabemos que toda la tensión creativa al servicio de la urbanización sostenible, no se puede comprimir en las páginas de un catálogo, por eso pensamos que es necesario ir más allá del papel impreso.

Somos una empresa formada por recursos, reales y virtuales, mantengámonos en contacto, visite nuestra página web www.metalco.it y síganos en las redes sociales para estar al día y descubrir todas esas pequeñas grandes atenciones que el mobiliario urbano requiere.

Desde los controles periódicos, pasando por las correctas operaciones de limpieza hasta el mantenimiento, compartimos con ustedes nuestro know-how porque cada objeto del mobiliario urbano tiene un valor que hay que proteger y respetar.

CERTIFICAZIONI - CERTIFICATIONS

Certificazione **UNI EN ISO 9001**, che definisce i requisiti minimi che il Sistema di Gestione per la qualità deve dimostrare di soddisfare per garantire il livello di qualità di prodotto che si dichiara di possedere.

Certificazione **UNI EN ISO 14001**, che dimostra all'interno di Metalco la presenza di un Sistema di Gestione Ambientale finalizzato al raggiungimento di obiettivi virtuosi in termini di prestazioni ambientali.

Certificazione **SOA, categoria III**, certificazione obbligatoria per la partecipazione a gare d'appalto per l'esecuzione di lavori pubblici, comprovante il rispetto da parte dell'impresa di tutti i requisiti previsti dall'attuale normativa in ambito di Contratti Pubblici.

Certificazione **Hen 1090 - 1:2009+A1:2011**, riguardante le caratteristiche prestazionali dei componenti strutturali di acciaio ed alluminio, ed il cui possesso permette la possibilità di apporre la marcatura C.E. ai propri prodotti.

Certificazione **ISO 45001**, ottenuta nel 2023, standard internazionale per la salute e sicurezza sul lavoro, progettato per proteggere dipendenti e visitatori da incidenti e malattie legate al lavoro.

Certification **UNI EN ISO 9001**, qui définit les exigences minimales que le Système de Gestion pour la Qualité doit démontrer pour garantir le niveau de qualité du produit qu'il déclare posséder.

Certification **UNI EN ISO 14001**, qui démontre au sein de Metalco la présence d'un système de gestion environnementale visant à atteindre des objectifs vertueux en termes de performances environnementales.

Certification **SOA, catégorie III**, certification obligatoire pour participer à des appels d'offres pour l'exécution de travaux publics, attestant que l'entreprise respecte toutes les exigences prévues par la réglementation en vigueur en matière de marchés publics.

Certification **Hen 1090 - 1:2009+A1:2011**, concernant les caractéristiques de performance des composants structurels en acier et en aluminium, dont la possession permet d'apposer le marquage CE sur ses produits.

Certification **ISO 45001**, obtenue en 2023, norme internationale pour la santé et la sécurité au travail, conçue pour protéger les employés et les visiteurs contre les accidents et les maladies liés au travail.

hEN 1090-1:2009+A1:2011

Certificazione **FSC**, che garantisce che la materia prima a base legnosa presente nel prodotto sia proveniente da una foresta certificata FSC, gestita in modo sostenibile, in linea con le più rigorose esigenze ambientali, sociali ed economiche e tutelando i diritti dei lavoratori lungo tutta la catena di custodia.

Certificazione **EcoVadis**, che fornisce una valutazione dettagliata delle performance di sostenibilità dell'azienda in aree quali ambiente, pratiche lavorative e diritti umani, etica e acquisti sostenibili.

Certificato di **Provenienza Energia Elettrica da fonti 100% rinnovabili** che attesta l'origine e la qualità dell'energia utilizzata dall'intero impianto produttivo.

Certificato di **riduzione delle emissioni di carbonio** che attesta il percorso intrapreso dall'azienda per il raggiungimento dell'obiettivo globale Net Zero.

UNI EN ISO 9001 certification, which defines the minimum requirements that the Quality Management System must demonstrate to guarantee the level of product quality that it claims to possess.

UNI EN ISO 14001 certification, which demonstrates within Metalco the presence of an Environmental Management System aimed at achieving virtuous objectives in terms of environmental performance.

SOA certification, **category III**, mandatory certification for participation in tenders for public works, certifying that the company complies with all requirements under current legislation on public contracts.

Hen 1090 - 1:2009+A1:2011 certification, concerning the performance characteristics of structural components made of steel and aluminium, which allows the CE marking to be affixed to our products.

ISO 45001 certification, obtained in 2023, international standard for occupational health and safety, designed to protect employees and visitors from work-related accidents and illnesses.

FSC certification, which guarantees that the wood-based raw material used in the product comes from an FSC-certified forest, managed in a sustainable manner, in line with the most rigorous environmental, social and economic requirements and protecting workers' rights throughout the chain of custody.

EcoVadis certification, which provides a detailed assessment of the company's sustainability performance in areas such as the environment, labour practices and human rights, ethics and sustainable procurement.

Renewable-Energy Certificate of Origin, certifying the origin from 100% renewable sources and quality of the energy used by the entire production plant.

Certificate of Carbon Avoidance certifying the steps taken by the company to achieve the global Net Zero target.

CERTIFICATIONS - CERTIFICACIONES

Certificación **UNI EN ISO 9001**, que define los requisitos mínimos que el Sistema de Gestión para la calidad debe demostrar cumplir para garantizar el nivel de calidad del producto que se declara poseer.

Certificación **UNI EN ISO 14001**, que demuestra la presencia en Metalco de un Sistema de Gestión Ambiental destinado a alcanzar objetivos virtuosos en términos de rendimiento medioambiental.

Certificación **SOA**, categoría III, certificación obligatoria para participar en licitaciones públicas para la ejecución de obras públicas, que acredita el cumplimiento por parte de la empresa de todos los requisitos previstos por la normativa vigente en materia de Contratos Públicos.

Certificación **Hen 1090 – 1:2009+A1:2011**, relativa a las características de rendimiento de los componentes estructurales de acero y aluminio, cuya posesión permite la posibilidad de aplicar el marcado CE a sus productos.

Certificación **ISO 45001**, obtenida en 2023, norma internacional para la salud y la seguridad en el trabajo, diseñada para proteger a los empleados y visitantes de accidentes y enfermedades relacionados con el trabajo.

Certificación **FSC**, que garantiza que la materia prima a base de madera presente en el producto procede de un bosque certificado FSC, gestionado de forma sostenible, en línea con los requisitos medioambientales, sociales y económicos más rigurosos y protegiendo los derechos de los trabajadores a lo largo de toda la cadena de custodia.

Certificación **EcoVadis**, que proporciona una evaluación detallada del rendimiento de la empresa en materia de sostenibilidad en áreas como el medio ambiente, las prácticas laborales y los derechos humanos, la ética y las compras sostenibles.

Certificado de **origen de la energía eléctrica procedente de fuentes 100% renovables** que acredita el origen y la calidad de la energía utilizada por toda la planta de producción.

Certificado de **reducción de emisiones de carbono** que acredita el camino emprendido por la empresa para alcanzar el objetivo global Net Zero.
